HIST 105, 106, or 226	History of the United States or History of Texas	3
POLS 207	State and Local Government	3
Semester Credit Hours		15

- Courses listed must be completed with a grade of C or better.
- *Required NUTR minor course
- **Counts towards Nutrition electives for the NUTR minor

Note: This course schedule serves as a general guideline and may vary for each student based on incoming credits, individual goals, and academic needs. Many students enter Texas A&M with AP or Dual Credit courses that **can** count toward their prerequisite coursework. It is important to consider that some programs do not recommend accepting AP or Dual Credit for science courses.

While grades from community college courses do not impact your TAMU GPA, they will be factored into your overall GPA when applying to nursing school. If taking science courses at a community college, it is safest to complete the lab in person, as some nursing programs do not accept online labs.

Before accepting any AP credit, *consult your academic advisor to ensure it won't affect your degree plan. Once AP credit is accepted, it cannot be reversed.*

Notes and Disclaimers from the College of Nursing

Coursework Timeline

- Competitive applicants will have the required coursework completed by the application deadline.
- Applicants may be asked to submit final grades for courses completed during the term that precedes the application deadline.
- Summer coursework grades will not be considered for fall applicants.
- Fall coursework grades will not be considered for spring applicants.

Additional Transfer Requirements

- Must complete two applications: 1) NursingCAS Application and 2) Apply Texas application to Texas A&M University.
- At the time of application submission, applicants must have completed a minimum of 40 credit hours of the required prerequisite courses; 12 hours of those 40 must be from the Nursing Science prerequisites of: Lifespan Development, Nutrition, Texas A&M Core Math, Chemistry, Anatomy & Physiology, and Microbiology.
- Admission Assessment Exam (HESI A2) must be completed with the following five (5) components plus Critical Thinking:
 - Math
 - Reading Comprehension
 - Vocabulary and General Knowledge
 - Grammar
 - Anatomy & Physiology
- To be competitive for admission, applicants should strive for a pre-requisite GPA of a 3.5 or higher. In addition to academic metrics, admission decisions are based on the applicant's personal attributes and experiences as demonstrated through timed verbal and written assessments.
- Proficiency in a foreign language is required to graduate from Texas A&M University. This requirement can be met by having completed two years of the same foreign language in high school, by completing two semesters of the same foreign language at the university level, or by demonstrating proficiency in a foreign language by examination.
- Transfer applicants should have completed a full semester (spring or fall) course load of 12 transferable hours (minimum) after graduating from high school.
- The College of Nursing is looking for students who are interested in pursuing our degree as a focus. Students should indicate our department as the primary major they are interested in if they wish to be admitted. The essay and supporting materials should reflect that the student is interested in pursuing our degree.
- Meeting minimum requirements does not guarantee admission. The entire record is reviewed for consistency in coursework and grades.
- View the College of Nursing website for further application information.

Additional Information

- Applicants should be serious about earning a degree in Nursing.
- Transfer applicants are instructed NOT to accept transfer admission to any major with the expectation of later applying for an on-campus change of major.
- Due to enrollment constraints, admission into the program is extremely competitive with a limited number of space available each year. Entry is available twice per year for Spring and Fall.
- Applicants are encouraged to register for a College of Nursing Prospective Student Information Session and an Application Workshop through the website.

Career & Educational Opportunities

The Texas A&M College of Nursing is committed to addressing the critical nursing shortage across Texas and strives to produce the best prepared nurses and the most advanced nursing research. As leaders, our graduates are taught to question traditional methods and to continually seek the best practices based on relevant clinical research. Through community service and leadership opportunities, the College of Nursing fosters a sense of social responsibility and global citizenship. We are developing research innovations to enhance the education and preparation of nurses, improve the delivery of patient care across an eclectic array of populations and translate research evidence into practice. For more information please visit careercenter.tamu.edu.

Transfer Course Sheet Notes

1. Admission decisions are based on academic metrics, experiences, and attributes as demonstrated through timed verbal and written assessments.
2. Transfer applicants are encouraged to complete University Core Curriculum coursework found in the Undergraduate Catalog unless specified above.
3. This Transfer Course Sheet was supported in a partnership between the Office of Admissions and the College of Nursing at Texas A&M University with the Undergraduate Catalog having the most current and definitive information.
